TMF 622 Product Order Resource Structure Description

Resource

Resource Name	Key	Mandatory /Optional	Data Type	Description	Supported Values	Sample Values	Assumption /Comment	Implemented by SV in Drop-0 ?	Davide's Analysis on SV/API Feasibility
ProductOrder	@type	M	String		ProductOrder	ProductOrder	SV to hardcode this value.	Yes	OK
	category	O	String	Order Category		B2C FTTH	SV to hardcode this value. This is a free text.	Yes	OK
	externalId	M	String	SingleView Order Id		44088-260909	SV to send SV order Id in this field.	Yes	OK
	orderDate	M	DateTime	Date when the order was created.		2025-01-30T00:00:00.012532Z	Order date value to be sent by SV.	Yes	OK
	priority	O	String	Order Priority		1	SV to hardcode this value.	Yes	OK
	productOrderItem	M	ProductOrderItem	List of product order items.					see "Product Order Item" section
	relatedParty	M	RelatedParty	List of related parties.					see "Related Party" section

Sub-Resource

Related Party

Sub-Resource Name	Key	Mandatory /Optional	Data Type	Description	Supported Values	Sample Values	Assumption /Comment	Implemented by SV in Drop-0 ?	Davide's Analysis
RelatedParty	@type	M	String		relatedParty	relatedParty	SV to hardcode this value.	Yes	OK
	@relatedType	M	String		customer	customer	SV to hardcode this value.	Yes	OK, could be same as in SV?

	id	M	String	Customer ID		CUST001	SV to send Customer ID in this field. <As per Vaibhav, Billing Account Number can be sent in this field> Vaibhav Vyas Vaibhav will confirm whether ID type is required or not. 15/04/25 Vaibhav Vyas confirmed that the Customer ID will be sent in this field.	Yes	this should be internal Telflow customer identification. If SV doesn't store it the needs to be retrieved firstly from Telflow
	name	M	String	Customer Name		Mobily	SV to send Customer Name in this field.	Yes	This is customer name in Telflow? if it should be provisioning exact same name in SV then it is fine, otherwise, an extra call to Get customer needs from Telflow in case of "id" is provided then shall be "name" considered as optional?
	role	M	String	Customer Role	CommerciallyResponsible	CommerciallyResponsible	SV to hardcode this value.	Yes	OK

Product Order Item

Sub-Resource Name	Key	Mandatory /Optional	Data Type	Description	Supported Values	Sample Values	Assumption/Comment	Implemented by SV in Drop-0 ?	Davide's Analysis on SV /API Feasibility
ProductOrderItem	@type	M	String		productOrderItem	productOrderItem	SV to hardcode this value.	Yes	OK
	id	M	String	Identifier of an order item.		id-001	SV to send Order Item ID in this field. 14/04/25 Vaibhav Vyas to confirm the format to be used here.	Yes	SV needs to know this values, is there any catalogue?
	action	M	String	An order item action type.	add, modify, delete	add	SV to send these supported value in this field. For, New order add; Change order modify Terminate order delete	Yes	OK
	ftthSubAction	M	String	An action type expected by the Nokia FlowOne for FTTH service.	NoChange, Activate, Suspend, Resume, CPESwap, HAGSwap, ONTSwap, ChangeOwner, Relocation, Rewiring, PreToPost, PostToPre, Downgrade, Upgrade, Deactivate	Activate	SV to send these supported values in this field. This data is expected by Telflow to initiate the fulfilment process applicable for each use case. Also, this data will be cascaded to NFO for service provisioning. 14/04/25 Vaibhav Vyas To revert on the field name to be used.	No	OK, needs details of those actions

	fvSubAction	M/O Mandatory when customer requests for Fixed Voice service.	String	An action type expected by the Nokia FlowOne for Fixed Voice service.	NoChange, Activate, Bar, Unbar, NumberSwap, Deactivate	Activate	SV to send these supported values in this field. This data is expected by Telflow to initiate the fulfilment process applicable for each use case. Also, this data will be cascaded to NFO for service provisioning. 14/04/25 Vaibhav Vyas To revert on the field name to be used.	No	OK, needs details of those actions
	normalAddOnSubAction	M/O Mandatory when customer requests for Normal AddOn.	String	An action type for Normal AddOn service.	Add, Delete	Add	SV to send these supported values in this field. This data is expected by Telflow to initiate the fulfilment process applicable for each use case. Also, this data will be cascaded to NFO for service provisioning. 14/04/25 Vaibhav Vyas To revert on the field name to be used.		OK
	advanceCallsAddOnSubAction	M/O Mandatory when customer requests for Advance Calls AddOn.	String	An action type for Advance Calls AddOn service.	Add, Delete	Add	SV to send these supported values in this field. This data is expected by Telflow to initiate the fulfilment process applicable for each use case. Also, this data will be cascaded to NFO for service provisioning. 14/04/25 Vaibhav Vyas To revert on the field name to be used.		OK
	product	M	ProductRefOrValue	A product to be created defined by value or existing defined by reference.					see "Product" section
	productOffering	M	ProductOfferingRef	A product offering reference.					
	productOrderItemRelationship	M/O Mandatory when customer requests for Fixed Voice service.	OrderItemRelationship	Represents the relationship of the Fixed Voice with FTTH service.					

Product

Sub-Resource Name	Key	Mandatory /Optional	Data Type	Description	Supported Values	Sample Values	Assumption/Comment	Implemented by SV in Drop-0 ?	Dave's Analysis on SV /API Feasibility
ProductRefOrValue	id	M/O	String	Product Inventory Instance ID of the service stored in Telflow. Applicable for change/modify orders.			SV to send the Telflow product inventory ID in this field for change/modify orders. During order processing, the product inventory ID generated in Telflow shall be sent in the TMF 622 Notification to SV. SV should persist this data against the provisioned product. The subsequent change/terminate orders for the customer shall be based on this Telflow product inventory ID.	Yes	SV should call get inventory before?
	@type	M	String		Product	Product	SV to hardcode this value.	Yes	OK
	quantity	O	String			1	SV to hardcode this value. <Babu to check whether this is required> 16/04/25 K Babu This field is mandatory at the child component level in Telflow. Hence expected to send this field in TMF 622 request by SV.	Yes	OK
	productSpecification	M	ProductSpecificationRef	A product specification reference.					SV should call get inventory before?
	characteristic	M	Characteristic	A list of characteristics represented as name/value pair.					SV should call get inventory before?

Product Specification

Sub-Resource Name	Key	Mandatory /Optional	Data Type	Description	Supported Values	Sample Values	Assumption/Comment	Implemented by SV in Drop-0 ?	Davide's Analysis on SV/API Feasibility
ProductSpecificationRef	id	M	String	Unique identifier of the product specification.	MOB-FTTH-Specification-02-00, MOB-FTTH-FIXEDVOICE-Specification-02-00, MOB-FV-NORMAL-ADDON-Specification, MOB-FV-ADVANCECALLS-ADDON-Specification, MOB-FTTH-BANDWIDTH-ADDON-Specification	MOB-FTTH-Specification-02-00	SV to hardcode this value. For, FTTH product MOB-FTTH-Specification-02-00; FV product MOB-FTTH-FIXEDVOICE-Specification-02-00; Normal AddOn MOB-FV-NORMAL-ADDON-Specification; Advance Calls AddOn MOB-FV-ADVANCECALLS-ADDON-Specification; Bandwidth AddOn MOB-FTTH-BANDWIDTH-ADDON-Specification	Yes	OK
	name	M	String	Name of the product specification.	FTTH, Fixed Voice, Normal Add-On, Advance Calls Add-On, Bandwidth Add-On	FTTH	SV to hardcode this value. For, FTTH product FTTH; FV product Fixed Voice; Normal AddOn Normal Add-On; Advance Calls AddOn Advance Calls Add-On; Bandwidth AddOn Bandwidth Add-On	Yes	OK
	version	M	String	Version of the product specification.	2.0	2.0	SV to hardcode this value. 17/04/25 K Babu Validate the Spec IDs and the respective versions in Telflow.	Yes	OK

Characteristic

Sub-Resource Name	Key	Mandatory /Optional	Data Type	Description	Supported Values	Sample Values	Assumption/Comment	Implemented by SV in Drop-0 ?	Davide's Analysis on SV /API Feasibility
Characteristic	meshExtenderRequired	O	String	Represents whether the customer requested Mesh Extender.	true, false	false	Required by Telflow to identify whether the customer requires ME to be installed.	No	from where this info should be get
	meshExtender						Placeholder to capture the ME details.	No	from where this info should be get
	qosProfile	M	String	QoS Profile of the FTTH service.		QoS100	Expected by NFO. Subject to change based on NFO EICD. 17/04/25 Vaibhav Vyas Faizan Sayyed Do we need this characteristic or will this be replaced with Bandwidth information? Should check this with E2E team or Mobily team.	Yes	need more info
	paymentType	M	String	Payment Type.	Prepaid, Postpaid	Postpaid	Expected by NFO. Subject to change based on NFO EICD.	Yes	need more info
	infrastructureProvider	M	String	Name of the Infrastructure provider.	Mobily, STC, ITC, Dawiyat	Mobily	Expected by NFO. Subject to change based on NFO EICD.	Yes	need more info
	ftthSAI	M	String	Service Account Identifier of the FTTH service.		SAI123	Expected by NFO. Subject to change based on NFO EICD. 17/04/25 Vaibhav Vyas Faizan Sayyed Billing Account Number can be used as FTTH SAI, but further analysis is required to understand the purpose of this field and what value can be populated in this field.	Yes	need more info

	odbld	M	String	Id of the Open Distribution Box.		ODB123	Expected by NFO. Subject to change based on NFO EICD.	Yes	need more info
	telephoneNumber	M/O	String	Telephone number assigned for the Fixed Voice service.		+966 11 987 7542	To be revalidated based on NFO EICD.	Yes	need more info
	fvsai	M/O	String	Service Account Identifier of the Fixed Voice service.		FVSAI123	Expected by NFO. Subject to change based on NFO EICD. 17/04/25 Vaibhav Vyas Faizan Sayyed Billing Account Number cannot be used for FV SAI if FTTH SAI been populated with the Billing Account Number. Further analysis is required to understand the purpose of this field and what value can be populated in this field or can this field be ignored?	Yes	need more info
	portIn	M/O	String	Set to true for PortIn scenario. Default is false.		false	Expected by NFO. Subject to change based on NFO EICD. 17/04/25 K Babu This field is only applicable for FV service.	No	need more info
	appointmentDate	O	DateTime			2025-02-06T00:00:00.000000Z	To be revalidated based on NFO EICD.	Yes	need more info
	relocationType	O	String	Applicable for relocation scenario.	OpenAccess To Mobily, OpenAccess To OpenAccess, Mobily To OpenAccess, Within Mobily, Within OpenAccess	OpenAccess To Mobily	Required by Telflow to identify the relocation type and triggers the respective fulfilment process.	No	need more info
	rewiringType	O	String	Applicable for rewiring scenario.	Within Mobily, Within OpenAccess	Within Mobily	Required by Telflow to identify the rewiring type and triggers the respective fulfilment process.	No	need more info

Product Offering

Sub-Resource Name	Key	Mandatory /Optional	Data Type	Description	Supported Values	Sample Values	Assumption/Comment	Implemented by SV in Drop-0 ?	Davide's Analysison SV/API Feasibility
ProductOfferingRef	@referencedType	M	String		productOffering	productOffering	SV to hardcode this value.	Yes	OK
	id	M	String	Unique identifier of the product offering.	MOB-FTTH-Offering-02-00, MOB-FTTH-FixedVoice-Offering-02-00, MOB-FixedVoice-Normal-AddOn-Offering-01-00, MOB-FixedVoice-AdvanceCalls-AddOn-Offering-02-00, MOB-FTTH-Bandwidth-AddOn-Offering-01-00	MOB-FTTH-Offering-02-00	SV to hardcode this value. For, FTTH product MOB-FTTH-Offering-02-00; FV product MOB-FTTH-FixedVoice-Offering-02-00; Normal AddOn MOB-FixedVoice-Normal-AddOn-Offering-01-00; Advance Calls AddOn MOB-FixedVoice-AdvanceCalls-AddOn-Offering-02-00; Bandwidth AddOn MOB-FTTH-Bandwidth-AddOn-Offering-01-00	Yes	OK

	name	M	String	Name of the product offering.	Fiber, Fixed Voice, Normal Add-On, Advance Calls Add-On, Bandwidth Add-On	Fiber	SV to hardcode this value. For, FTTH product Fiber; FV product Fixed Voice; Normal AddOn Normal Add-On; Advance Calls AddOn Advance Calls Add-On; Bandwidth AddOn Bandwidth Add-On	Yes	OK
--	------	---	--------	-------------------------------	---	-------	--	-----	----

Product OrderItem Relationship

Sub-Resource Name	Key	Mandatory /Optional	Data Type	Description	Supported Values	Sample Values	Assumption /Comment	Implemented by SV in Drop-0 ?	Davide's Analysison SV/API Feasibility
OrderItemRelationship	id	M	String	ID of the parent service specified in the request.		ID001	SV to send the parent order item ID in this field. (ProductOrderItem.id)	Yes	need more info
	relationshipType	M	String	Relationship Type of child (e.g., Fixed Voice) service with parent (e.g., FTTH) service.	reliesOn	reliesOn	SV to hardcode this value.	Yes	OK
	relationshipName	M	String		Fixed Voice, Normal Add-On, Advance Calls Add-On, Bandwidth Add-On	Fixed Voice	SV to hardcode this value. For, FV product Fixed Voice; Normal AddOn Normal Add-On; Advance Calls AddOn Advance Calls Add-On; Bandwidth AddOn Bandwidth Add-On	Yes	OK
	relationshipAction	M	String	This represents the action of the child service targeted to parent service.	add, modify, delete	add	SV to send these supported value in this field. For, Adding new relationship add; Modifying existing relationship modify Deleting existing relationship delete	Yes	OK
	relationshipReference	M	String		ASP000000000401, ASP000000000214, ASP000000000205, ASP000000000331	ASP000000000401	SV to hardcode this value. For, FV product ASP000000000401; Normal AddOn ASP000000000214; Advance Calls AddOn ASP000000000205; Bandwidth AddOn ASP000000000331	Yes	OK

Use Case Journeys

Use Case Overview

The following use cases are supported in this solution release, and are each reflected by a variation of Telflow product order type (new/change/terminate).

S. No	Join & Buy
-------	------------

	Use Case	TMF 622 Request Payload	
1	1. Customer buys new FTTH product via POS/Tafeely 2. Customer buys new FTTH product via Digital 3. Staff buys new FTTH product	 New FTTH Mob...Regular.json	 New FTTH Ope... Access.json
2	1. Customer activates fixed voice service with FTTH Package (or) 2. Customer with active FTTH subscription activates fixed voice standalone later in POS	 New FTTH + F... Access.json	 New FTTH + F...Regular.json
		 Change FV Activate.json	
3	Customer buys new FTTH bundled with DSP Products - LIKE Mobily tv, NETFLIX etc via POS, Digital	 New FTTH + FV + CS.json	
4	Customer RCY buys new FTTH product via POS/Tafeely	 New FTTH Mobily Royal.json	 New FTTH + FV...bily RCY.json

5	Customer Ports-In Fixed Line Service in POS	 PortIn.json	
	Customer buys FTTH Add-ons in Store, Digital and CC	 Change FTTH ...dOn Add.json	 Change FTTH...Remove.json
	Customer subscribe/unsubscribe normal Add-On Packages for Fixed voice via POS and CC	 Change FV No...dOn Add.json	 Change FV No... Remove.json
	Customer Subscribe/Unsubscribe Advance Calls Add-On Packages for Fixed voice via POS and CC	 Change FV Ad...dOn Add.json	 Change FV Ad... Remove.json
	Change		

6	1. Customer voluntary suspends FTTH services in POS, CC and Digital 2. Customer agrees Promise-to-Pay to maintain FTTH service while in Treatment 3. Customer with Prepaid FTTH service receives Grace Period via CC 4. Customer Prepaid FTTH service recharge with auto renewal using Best Fit Method	 FV Bar Mobily.json	 FTTH Suspend - Mobily.json
7	1. Customer resumes FTTH service via CC/POS/Digital 2. Customer agrees Promise-to-Pay to maintain FTTH service while in Treatment	 FTTH Resume ...nAccess.json	 FTTH Resume - Mobily.json
		 FV UnBar Mobily.json	 FV UnBar OpenAccess.json

8	Customer requests FTTH Device swap from POS	 ONT Swap.json	 HAG Swap.json
9	Customer changes Fixed Voice Number in POS	 Change FV Number.json	
10	Customer changes account ownership in POS	 ChangeOwner ...nAccess.json	 ChangeOwner ... Mobily.json
11	Customer requests FTTH Rewiring from POS	 FTTH-Within-O...enAccess.json	 FTTH-Within-Mobily.json

12	Customer requests FTTH Relocation from POS and CC	 FTTH-FV-Mobi...nAccess.json	 FTTH-FV-Open...nAccess.json
13	Customer changes from Prepaid to Postpaid FTTH package in POS	 FTTH-FV-Open...-Mobily.json	 FTTH-OpenAcc...-Mobily.json
		 FTTH-Mobily-...nAccess.json	 FTTH-OpenAcc...nAccess.json

PreToPost - F...enAccess.json

PreToPost - FT... - Mobily.json

PreToPost - F...enAccess.json

PreToPost - FT... - Mobily.json

14	Customer changes from Postpaid to Prepaid FTTH package in POS	 PostToPre - FT... - Mobily.json	 PostToPre - F...enAccess.json
15	Customer requests FTTH bandwidth upgrade/downgrade from POS, Digital and CC	 Downgrade Ba...nAccess.json	 Upgrade Band...nAccess.json
	Customer requests to cancel FTTH order from POS and CC	 Cancel Order.json	

	Customer request update on open order from POS and CC	 Patch Order.json
	Leave	
16	1. Customer terminates FTTH service in POS, Digital and CC 2. Customer fails to pay FTTH invoice and gets treated in Collections Treatment Flow 3. Impact of dunning life cycle in case customer has Fixed voice	 Terminate FTTH.json
17	1. Customer request FTTH service and Fixed Voice disconnection	 Terminate FTTH + FV.json
18	Customer Ports-out Fixed Line service sold along with FTTH	 PortOut.json
19	1. Customer requests Fixed Voice disconnection in POS 2. Fixed Voice disconnection due to FTTH Postpaid to Prepaid package change 3. Recycling of Fixed Line Numbers 4. Fixed Voice Disconnection due to FTTH relocation	 Change FV Deactivate.json
